

Product Name	Flow Black Frames
Codes	BU_FL021, BU_FL022, BU_FL023, BU_FL024, BU_FL025, BU_FL026, BU_FL027, BU_FL028, BU_FL029, BU_FL030, BU_FL201, BU_FL202, BU_FL203
COO	China
Material	Mild Steel
Finish	Powder coated - RAL9005
Product End Use	Display Stand - not intended for direct contact with food.
Declaration of Compliance	These products are not intended to come into direct contact with food. Product materials comply with ISO 9227:2022/Amd 1:2024
Revision Date	16/12/2025

Material Information

The frames are constructed from powder coated mild steel. The frames include plastic feet to stop the riser from damaging counter surfaces.

Cleaning & Maintenance

Powder coat:

Powder coating offers a robust decorative surface protection, and prevents the underlying mild steel from rusting. Although the powder coat is tough, it can be damaged by improper use, handling or storage. Take particular care not to knock frames together or against hard surfaces.

Cleaning:

These products are NOT suitable for dishwasher cleaning. Craster recommends cleaning with a non-abrasive cloth using a mild (pH-neutral) detergent. Ensure all detergent is removed with damp cloth and dry thoroughly with a soft towel to prevent water spots. Leave to fully dry in a rack.

Storage:

Do not allow the frames to remain in contact with liquids for a prolonged time. Store cleaned and dried frames in a dry location.

Repair:

Small sections of damage can be repaired using touch up pens, supplied by Craster on request.

Caution

DO NOT use abrasive cleaning products or chemicals, alkaline, acidic or bleach
 DO NOT allow the frames to remain in contact with liquids for a prolonged time
 DO NOT use in the dishwasher
