Revision Date	24/03/2023

Material Information

This item is made from natural slate with a mineral oil finish.

Cleaning & Maintenance

This product should be washed by hand only. Slate is a natural material and needs to be handled carefully to avoid chipping.

This product has a protective mineral oil coating that should re-applied regularly (Supplied by Craster).

The coating can be damaged or degraded by improper cleaning and maintenance.

If this occurs, acidic food (citrus, etc) that come into contact with may mark the surface and leave a pale bloom.

To remove the stain and refinish the products coating:

1. Hand wash the slate in warm water with a mild detergent, and a soft cloth.
2. Persistent stains can be removed with a stiff plastic bristled brush and a paste of baking soda and dish washing liquid. Repeat step 1.
3. Allow the product to fully dry overnight in a drying rack.
4. Apply a new coat of Craster food safe Mineral oil following the products instructions.
5. Leave the mineral oil to penetrate the slate and cure for 24hrs before recommencing use.

Caution

DO NOT use abrasive scourers on this product.
