 Amperage: 13.82/6.61 A
 Wattage: 1520 W
 Variable Temperature: from -5°C to +140°C
 Time needed to warm up / cool down: Approximately 30 minutes

Cleaning & Maintenance

Before cleaning, ensure the unit is disconnected from mains power. Please make sure water is kept away from electronics. If water does enter the unit, please make sure the unit is completely dry before being plugged back in.

Craster recommends cleaning the unit with a non-abrasive cloth using a mild detergent. Ensure all detergent is removed with damp cloth and dry thoroughly with a soft towel to prevent water spots.

Caution

DO NOT use abrasive cleaning products or cloths as this will scratch the Dekton surface.
 DO NOT cook food directly on Dekton surface.
 This product must NOT be daisy chained.
