Material Information

The carafes are made from Tritan, a brand name for a type of copolyester plastic. It is known for its excellent clarity, durability, and resistance to a wide range of chemicals and temperatures. Tritan plastic is used in a variety of applications, including food and beverage containers, kitchenware, bottles, and medical devices.

- BPA Free
- Safe for food contact
- Dishwasher Safe
- Recycle with "Other Plastics #7"

Cleaning & Maintenance

Only the carafe and lid can be washed and sterilised in a commercial dishwasher. Take care not to allow metal or ceramic items to touch the carafe during the cleaning process. To best maintain optical clarity and avoid scratching / tarnishing, use only plastic or wood serving utensils. Clean with a non-abrasive cloth using mild detergent.

Hand wash the cooler using a non-abrasive cloth, warm water and a pH-neutral washing up liquid.

Wipe the Cold Cell clean with a damp, non-abrasive cloth. Do NOT place the Cold Cell in a dishwasher.

Caution

DO NOT allow the product to be heated above 100°C
DO NOT position warming lamps within 25cm of product
DO NOT use abrasive cleaning products or cloths as the material will scratch
DO NOT use with warm foods or under Heat Lamps
Risk of frost burn. Handle the Cold Cell with care when frozen. Wear insulated gloves.
