COO	China
Material	ABS with TPU Rubber Overmould
Product End Use	Food Presentation
Declaration of Compliance	This product is not intended to come into direct contact with food.
Revision Date	05/01/2026

Material Information

This product is made from ABS plastic with a TPU Rubber overmoulded surface. Ensure trays are stored in a cool, dry location.

Cleaning & Maintenance

This product is suitable for dishwasher cleaning. We recommend a gentle, low-temperature wash ($\leq 55^{\circ}\text{C}$ / 130°F) using a mild, non-abrasive dishwasher detergent. Remove promptly after cycle completion to avoid heat soak and allow trays to air dry naturally.

This product can also be hand washed with a non-abrasive cloth using a mild detergent. Ensure all detergent is removed with a damp cloth and dry thoroughly with a soft towel to prevent water spots.

To avoid staining from spills such as drinks or sauces, we recommend cleaning trays within 2 hours of use for optimal outcome.

Caution

DO NOT use abrasive scourers on these products as they may cause damage.
DO NOT store in direct sunlight to avoid discolouration and material degradation.
AVOID exposing products to prolonged heat; this can cause the tray to warp.
