<b>Code</b>	TO_MOD_SRGNMSPCB, TO_MOD_CPMSPCB, TO_MOD_PHGNMSPCB
<b>COO</b>	Czech Republic
<b>Material and Finish</b>	Mild steel, black powdercoat, Polyester Felt
<b>Product End Use</b>	Display Trolley
<b>Revision Date</b>	13/04/2022

### Material Information

This item is made from mild steel with a powdercoated finish. Felt protector pad are applied to the back to mitigate contact damage between parts.

### Cleaning

Epoxy powdercoat is a durable finish, which requires gentle cleaning to maintain.

Carefully remove any loose surface deposits with a wet sponge.

Use a soft cloth(non abrasive) neutral detergent diluted in warm water (DO NOT use solvents).

Ensure you thoroughly wipe the surfaces with clean fresh water after cleaning to remove all residues.

Avoid overly wetting the felt protectors, as the adhesive may degrade over time, and the felt may take a long time to dry.

### Maintenance

Ensure felt protectors are in adequate condition.

Removal and replacement instruction can be obtained through Craster.

### Caution

If the item becomes bent, deformed or cracks appear in welded joints due to improper use, cease use immediately.

Bubbling, flaking or peeling powder coat is most likely to be caused by extended contact with water or damp items.
