CONFERENCE AND EVENTS
2025 COLLECTION

craster

Conference & Events

From hotel meeting rooms to shared co-working areas, conference and event spaces are evolving to be an integral part of the hospitality sector

Craster are a key provider of conference and event tables to the high end properties, contract catering providers and serviced office spaces.

We work closely with clients to curate their event space, ensuring the perfect table system solution is delivered. We offer a range of table systems, blending function with form to create a seamless aesthetic with unrivalled back of house functionality.

Line Table
Conference | Workspace

Combining contemporary elegance with true operational innovation, Line offers a contemporary aesthetic to fit discreetly into any environment.

The lightweight tops and compact folding leg system combine to offer real advances in the evolution of hygiene-conscious table design. Safe, sanitary and linenless, Line allows for the creation of beautiful, contemporary aesthetics across socially distant spaces.

Each table features an intuitive locking system, with ergonomic grip for single-person seamless set-up, breakdown and change over, with no tools required. Intelligently-designed legs fold to a 43mm width, with table tops slotting underneath on the trolley for class-leading, compact back-of-house storage.

Cable Management

Line Table Elements

The Line Table range is available in two sizes – 1800 mm and 1500 mm – and in five different shapes – rectangular, narrow rectangular, classroom, trapezoid and half round – to create various configurations that can be built to suit specific needs.

The Line range consists of five different elements including table tops, legs, modesty panels (optional), cable management (optional) and trolleys (mandatory).

Line Table tops are engineered from HPL with a durable Reef edge; table legs and top undersides are available in complementing colours. Craster recommends the material and colour pairings in this curated collection. Bespoke options are available upon request.

Line Table trolleys conveniently store 8 tops and legs, enabling the Line System's convenient transport before and after changeover. Featuring the highest stacking density in the market, the Line trolleys support a dynamic storage and movement solution.

Line Table Aesthetic

Line is Craster's new linenless conference table range, offering a contemporary aesthetic that fits discreetly in any environment.

The range is a versatile table system, intelligently designed for efficient set up and break-down. Offering great functionality, ergonomics and flexibility, Line addresses the key challenges of operating in the demanding conference and events sector.

craster

Link table
Events | Poseur | Bar | Buffet

Introducing Link, a beguilingly sleek and mutable events table for the most ambitious event space designers.

Forged to support full F&B services, seated presentations or lingering points, the Link table range has been designed to complement our Line system for a seamless aesthetic across and between spaces.

Link features a slender obround leg profile with central folding mechanism for easy storage and intuitive setup in three heights. Taking inspiration from the sustainable, linenless design of the Line table, this folding table system is available in a range of sizes with hygiene-conscious HPL or toughened glass tops, offering flexible, wipe-clean solutions in the events space.

Link Table Elements

The innovative Link Table System blends front-of-house poise with back-of-house functionality in a beautiful concept. Available in three shapes - rectangular, round and square - Link tables can be combined with different height legs to create nesting arrangements.

Select a shape and material for the top and finish by choosing a leg height (short, medium, tall).

Link Table trolleys store up to 6 tops and legs from this chic collection. Ideal for careful transport and storage of glass and HPL tops, the stacking density is only surpassed by the quality of craftsmanship.

Rise Table
Events | Poseur | Buffet

The Rise table system has been intelligently designed to support a responsive, modular service, pairing beauty with effortless assembly.

Using a universal locating system, the Rise Table System allows you to mix and match any top or legs to create the perfect solution for your display.

Three new leg finishes in natural, white and painted black oak, with interchangeable HPL table tops, create a variety of pairings to fit seamlessly with your space. The protective table top Reef edge and demountable Rise system offer the perfect solution for frequent setup, breakdown and back-of-house storage by a single team member.

Combined with laminate tops, Reef edges provide an unparalleled ease of care with wipe-clean hygiene and discreet undersides. To curate your table system, select a size, table top shape and finish for your legs and tops.

Laminates and Finishes

Working closely with global design practices and innovating with partners, we have carefully curated this exclusive collection of table and leg finishes for our clients. From the striking White Marble laminate and our signature Tobacco finish to the daring smoked grey glass, these hygienic hard-wearing laminates, toughened glass and metals have been selected for Craster table ranges.

The table top and leg finishes presented here showcase our recommended pairings.

Custom finishes are available upon request.
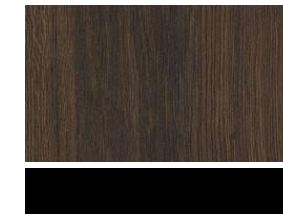

B11

Tobacco + Black

Craster's signature Line Table finish, **Tobacco Charleston Oak** laminate tops craft a luxurious wood effect that harkens to the robust arbors of the coastal Southern United States. Ideally paired with our black Reef edging and black metal legs.

Recommended for:

* Longer lead times may apply for Tobacco Laminate finishes

B11
Tobacco + Black

B13

Light Walnut + Black

Famed for its dark grain and timeless aesthetic, **Walnut** has been a sought-after material and status symbol from the High Middle Ages through mid-century Modernism. Ideally paired with our black Reef edging and black metal legs.

Recommended for:
- Line

B13
Light Walnut + Black

D15

Acacia + Grey

The pale spilled-honey of this African wood is as desirable as it is storied. With its Nordic feel, **Acacia** is ideal for creating a light surface whilst retaining an elegant wood effect to respond to a biophilic aesthetic. Ideally paired with our grey Reef edging and grey metal legs.

Recommended for:

Fare Trolley System

Mobile Food & Beverage Stations

A configurable F&B distribution and display system, the new Fare Trolley System offers operational efficiency across a property from morning to night.

Designed to a Gastronorm footprint, this modular approach allows trolleys to be used in isolation or built out to larger stations using the drop in bridge.

The contemporary metal frame is complemented by a selection of materials (hardwoods and HPL available) which are reversible and replaceable, extending the longevity of the product.

Additional accessories extend the functionality with speed rails to maximise surface area and panels to conceal lower and middle shelves available, allowing the system to spend as much time as possible front of house.

The launch of the Fare 2.1 gave way to a more compact trolley design, catering to gueridon and tableside scenarios from morning to night.

Flow Hot and Cold Trolley

The Flow Hot and Cold Trolley delivers dual cooling and heating functionality in one compact, versatile display unit, enabling true functional flexibility from chilled breakfast juice stations to heated brunch displays and frosted evening desserts.

Designed specifically to withstand extreme temperature changes, the food-safe, durable top offers a wide temperature range from -5°C to 140°C.

A cornerstone of the popular Flow range and compatible with the entirety of the suite, the trolley features multiple extending shelves angled slightly forward, giving added storage and maximising the merchandising effect for multi-height food display with easy access.

Available in oak or walnut with a choice of region plug type.

Voltage required: 1520 / 140 Watt | 230 / 115 V ~ 50/60 Hz
Number that can be daisy chained together: Null
Variable Temperature: from -5°C to +140°C
Time needed to warm up / cool down: Approximately 30 minutes
